

1,2-EPOXYHEXANE

Product data

CAS No.: 1436-34-6
EC No.: 215-864-6
Molecular Formula: C₆H₁₂O
Molecular Weight: 100.16
IUPAC Name: 1,2-epoxyhexane
Synonyms: Butyloxirane

APPLICATIONS: Intermediate for organic synthesis

PRODUCT DESCRIPTION

Form: colorless liquid
Boiling point: 118 - 120 °C
Water solubility: Not available

Specification	standard
Assay	min 97 %

SHIPPING, HANDLING AND STORAGE

- Store in a cool, dry place in a tightly closed glass containers
- Keep away from sources of ignition
- The material is packaged as requested by the customer
