

1,2-EPOXYOCTANE

Product data

CAS No.: 2984-50-1
EC No.: 221-047-5
Molecular Formula: C₈H₁₆O
Molecular Weight: 128.22
IUPAC Name: 1,2-Epoxyoctane
Synonyms: Hexyloxirane

Applications: Intermediate for organic synthesis

PRODUCT DESCRIPTION

Form: colorless liquid
Boiling point: 60 - 62 °C/ 2.26 kPa
Water solubility: Slightly soluble

| Specification | standard |
|---------------|----------|
| Assay | min 97 % |

SHIPPING, HANDLING AND STORAGE

- Store in a cold place. Recommended storage temperature is 2-8 °C
- Moisture sensitive
- Store under inert gas
- The material is packaged as requested by the customer
