

2,5-DIMETHYL-3-HEXYNE-2,5-DIOL

Product data

CAS No.: 142-30-3
EC No.: 205-533-4
Molecular Formula: C₈H₁₄O₂
Molecular Weight: 142.2
Synonyms: Tetramethylbutynediol; 2,5-dimethylhexyne-2,5-diol; Hexadiindiol; 2,5-dimethyl-2.5-hexynediol

APPLICATIONS: Chemical and pharmaceutical Intermediates

PRODUCT DESCRIPTION

Appearance: very slightly yellow crystalline flakes
Melting point:: 90-94 °C
Boiling point: 121-123 °C (0.93 kPa)
Water Solubility: 240 g/L (20 °C)

Specification	Product
Purity	min. 99 %

TOXICITY

The toxicological properties of this substance have not been fully investigated.
May cause irritation eye, skin and respiratory tract.

SHIPPING, HANDLING AND STORAGE

- Avoid contact with eyes, skin, and clothing. Avoid ingestion and inhalation.
- Keep container closed when not in use. Store in a tightly closed.
